S39 GLOBAL ABOUT US

S39 Global Matrix Ai is an advanced AI-powered trading and financial ecosystem built to deliver transparency, automation, and growth in the digital economy. Powered by the innovative S39 Global Matrix model, S39 Global Matrix merges artificial intelligence with decentralized trading solutions, empowering users with smarter strategies, sustainable returns, and long-term security.

More than just a platform, S39 Global Matrix Ai is a complete ecosystem — combining Matrix programs and automated trading solutions to unlock multiple earning opportunities for everyone.

Through our decentralized smart contract system on BNB Coin (BEP20), users can participate in the S39 Global Matrix Spillover program, starting with as little as \$10 and scaling up to greater rewards. Meanwhile, our AI trading engine works 24/7 on the Top 10 cryptocurrencies, spotting bullish opportunities and executing trades automatically to maximize profits.

This dual approach —Global Matrix + AI Trading — creates a multi-earning ecosystem where members benefit from community-driven rewards, automated profits, and financial freedom without heavy requirements.

S39 Global Matrix Ai is your gateway to the future, where AI, blockchain, and decentralized finance unite to build sustainable wealth

OUR VISION

- To redefine the future of decentralized finance by creating an AI-powered ecosystem where innovation, automation, and community-driven growth merge seamlessly. We envision a world where financial freedom is accessible to all, built on trust, sustainability, and cutting-edge blockchain technology.

OUR MISSION

- To empower individuals globally through decentralized Matrix programs that reward collaboration and participation.
- To deliver AI-driven trading intelligence that operates 24/7, maximizing opportunities in the world's top cryptocurrencies.
- To create a multi-stream earning ecosystem that is fair, transparent, and scalable for everyone — from beginners to professionals.
- To uphold the highest standards of security, transparency, and trust through blockchain-based smart contracts.
- To build a vibrant global community, where technology, trust, and teamwork drive unstoppable financial growth.

◆ **S39 Global Matrix AI**

- Earnings from Matrix income are not fixed or guaranteed. Actual rewards depend on member participation, upgrades, referrals, spillovers, and community activity.
- All Matrix payouts are executed through BNB (BEP20) smart contracts, making them automatic, transparent, and irreversible.
- A 10% system maintenance charge is applied on every Matrix profit to ensure sustainability and fair income distribution.
- Member performance and network growth directly affect income potential. Results vary from person to person.
- No refunds or reversals are possible, as the platform operates fully on decentralized blockchain technology.
- Participation in S39 Global Matrix AI is voluntary and at your own risk.

◆ **AI Trading**

- AI trading profits are not fixed or guaranteed. Earnings depend on market conditions, trading performance, and program duration.
- Cryptocurrency markets are highly volatile. While AI trading aims to optimize results, losses are possible.
- Daily ROI percentages may fluctuate and are not promised as fixed returns.
- Capital invested in AI Trading Programs is locked for the chosen duration (30 / 60 / 90 / 120 / 150 / 180 days).
- After the lock period, members may withdraw capital or keep it active to continue earning.
- Past performance does not guarantee future results.
- Participation in AI Trading is voluntary and at your own risk.
- S39 Global Matrix AI does not provide financial, legal, or investment advice.

BLOCKCHAIN NETWORK

BNB SMART CHAIN HIGHLIGHT

- BNB Smart Chain (BSC), now part of the larger BNB Chain ecosystem, is a high-performance blockchain network developed by Binance that allows for the creation and execution of smart contracts, essentially enabling Decentralized applications (dApps) to be built on its platform; it's known for its fast transaction speeds and low fees, using the native BNB Coin to power the network and pay for transaction costs.

- **Key points about BNB Smart Chain:**
- **Functionality:**
- Enables the development of decentralized applications (dApps), particularly in the DeFi (decentralized finance) space.
- **Compatibility:**
- Designed to be compatible with the Ethereum Virtual Machine (EVM), allowing for easy migration of Ethereum-based dApps.
- **Consensus Mechanism:**
- Uses a Proof-of-Staked Authority (PoSA) model where validators are elected based on their stake of BNB tokens to secure the network.
- **Native Coin:** BNB (Binance Coin) is the primary token used to pay transaction fees and participate in network governance.

DAILY BOOSTER INCOME DISTRIBUTION

The Daily Booster Income is designed to provide extra non-working rewards for members who remain active and keep their Slots upgraded.

◆ How It Works:

- Whenever a new member upgrades a Slot, 10% of their transaction is distributed as Daily Booster Income.
- This reward is shared among all existing members who have already upgraded the same Slot.
- Example: If 10 members have upgraded Slot 5, and an 11th member upgrades Slot 4, then 10% of the 11th member's transaction will be shared equally among the first 10 members.
- The process repeats for every Slot (1 to 6), creating endless booster rewards.

◆ Eligibility Condition:

- To qualify, you must self-upgrade from Slot 1 through Slot 4.
- Once upgraded, you are eligible for Daily Booster Income.
- ☒ No direct partners required — just your self-upgrade is enough.

◆ Key Benefits:

- 10% Rewards shared daily among eligible members
- Non-working income – earn without referrals
- Endless booster cycle – continues as long as Slots are upgraded
- S39 Global Matrix Booster turns community growth into continuous, powerful rewards.

This is Example

Booster Found \$10,000 USDT
Members 100 $\frac{\$10,000}{100} = \100 Per Members

Eligible

SLOT 1 Active	SLOT 2 Active	SLOT 3 Active	SLOT 4 Active
-------------------------	-------------------------	-------------------------	-------------------------

- To qualify, you must self-upgrade from Slot 1 through Slot 4.

S39 GLOBAL MATRIX WEEKLY SALARY INCOME

1 Pink 4 Spots (3rd Line)

- In the S39 Matrix, some positions in the 3rd line are marked as Pink Spots.
- These are: 17th, 18th, 25th, and 26th positions.
- These pink spots are special salary points.
- When these positions are filled, they send 200% for Auto-Distribution

3 Eligibility Criteria

- Not everyone receives the weekly salary.
- To be eligible:
- ☒ You must have your own completed cycle slot.
- ☒ Only active members with at least 1 cycle completed qualify.
- If you don't have your own completed slot, you will not receive weekly salary income.

2 Auto Salary Distribution

- Every slot cycle (when your matrix slot is completed), an automatic salary distribution happens.
- The income generated from pink spots is automatically distributed to eligible members.

4 Separate Slot Distribution

- Each slot cycle is considered separately.
- Example:
- If you have 1 cycle slot, you will get 1 salary distribution.
- If you have 3 cycle slots, you will get 3 salary distributions.
- More cycles = More weekly salaries.

5 Weekly Salary Rule Summary

- Pink Spots (17, 18, 25, 26) = Salary generating spots.
- 200% Auto-Distribution when filled.
- Weekly Salary comes from these spots and is distributed to eligible members.
- Each completed slot cycle = 1 weekly salary.
- Multiple cycles = Multiple salaries.
